

SUPPLY CHAIN SERVICES

Complete Portfolio of Supply Chain Solutions

An industry leader, TransPak consistently creates new supply chain management solutions to proactively respond to market change. We understand the nuances of supply chain management both for business customers and consumers and we leverage this knowledge so you can strategically optimize supply chain efficiencies.

Reliable, Efficient Turnkey Project Management

TransPak offers the extensive material purchasing and management experience needed to meet your business goals. You benefit from vendor managed inventory programs including domestic and offshore suppliers as well as access to on-line, real-time reporting. We manage procurement, fulfillment and distribution, all the while keeping inventory levels, order status and supplier communications on-track. With TransPak, processes and technology infrastructure are designed for optimal flexibility, quality, and visibility.

Greater Control Throughout Your Supply Chain

TransPak partners with you to provide the manufacturing support, inventory management, procurement and assembly processes you need. Using lean assembly manufacturing cells, we can assemble and kit orders on a build-to-order (BTO) or on a build-to-stock (BTS) basis. With our wholly-owned warehouse we can store your raw materials and finished goods while maintaining inventory levels and accuracy using the latest technology – VMI, Cycle Count, FIFO, Bar Coding, etc. TransPak creates a pick, pack and ship process with exactly the custom labeling and

From procurement to assembly and fulfillment, TransPak has the supply chain services you need. We can help you manage your global supply chain while at the same time ensuring quality, accuracy and timeliness. With the TransPak focus on flexibility, you can take advantage of turnkey programs for material planning and procurement, automated material management, fulfillment, distribution and the logistics to tie it all together.

bar-coding you need for unmatched attention to detail and control. We can work within your existing pipeline and infrastructure or create one for you. Either way, we'll close the gaps and improve operational performance.

Full-Circle Supply Chain Logistics

TransPak integrates timely, damage-free transportation at each step in your supply chain process – forwards and backwards. Strategic global locations facilitate the warehousing, handling and transportation no matter where you need it. No matter whether a shipment is headed for market or being returned by a customer, TransPak knows just what is needed for timely, damage-free delivery to end-consumers, businesses, distributors and retailers.

Unrivaled Customer Satisfaction

TransPak tailors services that meet your unique challenges to create unique, cost-efficient supply chain solutions. Contact us for a free consultation to learn just what we can do for you.
