**TRANSPAK, LEADER IN CRATING, PACKAGING, AND LOGISTICS
ACQUIRES DFM INTERNATIONAL TO EXPAND INTERNATIONAL
LOGISTICS FOOTPRINT**

San Jose, Calif. (January 2, 2006) – TransPak, the worldwide market leader in crating, packaging and logistics and the only company in the industry to specialize in all three services to deliver quality, state-of-the-art, door to door solutions to its manufacturing partners, today announced that it has acquired DFM International, a South San Francisco based customs-house broker and international freight forwarder.

“Our logistics division has grown substantially over the past five years and we are consistently asked by our customers to handle import and export shipments,” said Leilani Arendell, TransPak’s Vice President of its Logistics Division. “Our customers are international players and by having an international forwarder and customs broker in-house we can improve shipment times and speed our customers supply chains.”

Transpak International provides transport and logistics solutions to meet the demands of buyers and sellers regarding the movement of goods. The more complex the cargo handling becomes the more we make it simple by means of our interconnected overland, air and sea freight services linked together by state of the art information technologies. Transpak has obtained certifications such as Worldwide air and ocean services, TSA Indirect Air Carrier, NVOCC Licensed (Direct Ocean), US Custom House Brokerage, FMC Licensed, ATA Carnet Applications, Letters of Credit, Customs Bonds, AES Filings on all exports, DDP Service and advancement, IATA Member.

About TransPak:

TransPak is the worldwide market leader in crating, logistics, and packaging and the only company in the industry that specializes in all three services to deliver quality, state-of-the-art, door to door solutions to its manufacturing partners.

Founded in 1952, TransPak is headquartered in California's Silicon Valley, where it has been a vital partner to leading technology companies for decades. Today TransPak provides custom crating, packaging, and logistics support to top companies in the semiconductor, aerospace, medical equipment, security, and solar industries. Since 2000, the firm has expanded its global footprint to include offices in Tualatin, Oregon, Austin, Texas, and Shanghai, China—going where its manufacturing partners are to provide exceptional quality and service worldwide.
