**TRANSPAK, WORLDWIDE LEADER IN CRATING, PACKAGING, AND
LOGISTICS HIRES INDUSTRY VETERAN BILL DINSMORE AS VICE
PRESIDENT PACKAGING MATERIALS DIVISION**

San Jose, Calif. (March 1, 2008) – TransPak, the worldwide market leader in crating, packaging and logistics and the only company in the industry to specialize in all three services to deliver quality, state-of-the-art, door to door solutions to its manufacturing partners, today announced that Bill Dinsmore will serve as Vice President of the global company's growing Packaging Materials division.

As Vice President of Packaging Materials for TransPak, Mr. Dinsmore will be responsible for expanding both stock and custom packaging capabilities at TransPak. Mr. Dinsmore has a 25 year career in both manufacturing and distribution. He spent 15 years in the corrugated manufacturing and foam fabricating arenas along with the past 10 years in the packaging distribution side of the industry. Mr. Dinsmore began his career at The Box Maker as an account executive in Seattle, Washington. Mr. Dinsmore moved to California in 1997 and held a number of sales and sales management positions, most notably as a sales manager at for one of the largest independent packaging distributors in the Bay Area.

"TransPak is proud to add an industry veteran in the packaging materials business to our management team," said Bob Lally, TransPak's President. "TransPak has been distributing packaging materials to our crating customers over the past several years but by adding a dedicated executive to lead this business unit we are poised to be a more integrated supplier to our customers."

Mr. Dinsmore holds a BA in Political Science from the University of Oregon.

About TransPak:

TransPak is the worldwide market leader in crating, logistics, and packaging and the only company in the industry that specializes in all three services to deliver quality, state-of-the-art, door to door solutions to its manufacturing partners.

Founded in 1952, TransPak is headquartered in California's Silicon Valley, where it has been a vital partner to leading technology companies for decades. Today TransPak provides custom crating, packaging, and logistics support to top companies in the semiconductor, aerospace, medical equipment, security, and solar industries. Since 2000, the firm has expanded its global footprint to include offices in Tualatin, Oregon, Austin, Texas, and Shanghai, China—going where its manufacturing partners are to provide exceptional quality and service worldwide.
