**TRANSPAK, WORLDWIDE LEADER IN CRATING, PACKAGING, AND
LOGISTICS HIRES INDUSTRY VETERAN RAY HORNER AS COO OF ITS
GROWING GLOBAL BUSINESS**

San Jose, Calif. (December 1, 2007) – TransPak, the worldwide market leader in crating, packaging and logistics and the only company in the industry to specialize in all three services to deliver quality, state-of-the-art, door to door solutions to its manufacturing partners, today announced that Ray Horner will serve as Chief Operating Officer of the global company's growing business.

As COO of TransPak, Mr. Horner will be responsible for managing the company's growing network of manufacturing plants. Mr. Horner has spent the last 20 years of his career in the crating and packing industry. The last 15 of which have been at the executive level in the Los Angeles market with such diverse customers as Boeing, Disney, Bechtel, and GE to name a few.

"As TransPak grows its footprint domestically and internationally, it is important that quality and service remain high and consistent across all locations and we are proud that Ray will provide the leadership to ensure that happens," said Bert Inch of TransPak. "His experience in the crating industry and commitment to excellence is unsurpassed and we look forward to Ray improving our ability to service and respond to our customer's ever expanding needs."

Mr. Horner holds a BS in Business Management and several certificates including one from SMTP (School of Military Packaging Technology) in Aberdeen Maryland.

About TransPak:

TransPak is the worldwide market leader in crating, logistics, and packaging and the only company in the industry that specializes in all three services to deliver quality, state-of-the-art, door to door solutions to its manufacturing partners.

Founded in 1952, TransPak is headquartered in California's Silicon Valley, where it has been a vital partner to leading technology companies for decades. Today TransPak provides custom crating, packaging, and logistics support to top companies in the semiconductor, aerospace, medical equipment, security, and solar industries. Since 2000, the firm has expanded its global footprint to include offices in Tualatin, Oregon, Austin, Texas, and Shanghai, China—going where its manufacturing partners are to provide exceptional quality and service worldwide.
