

Resourceful Packaging & Container Solutions

Since 1952, TransPak has been the Silicon Valley's trustworthy source for packaging materials. Rest assured that by leveraging TransPak's extensive knowledge and expertise, your products and equipment will arrive on-time and damage-free to your customers.

Custom & Stock Packaging

TransPak designs custom packaging solutions according to your unique specifications. We offer a variety of options to ensure that your products are efficiently and properly packaged. In addition to our giant stock of corrugated boxes, we also produce short run custom containers to keep your supply chain moving. Or, you can choose from over 10,000 items – everything from tapes and bubble wrap, to poly bags, stretch film, labels and foam – can be ordered by electronic data interchange (EDI), email, phone or fax.

By making sure you have exactly what you need, we help you eliminate any unnecessary packaging ensuring that you see improvements in efficiency and decreases in cost.

Kanban, VMI & JIT Program Management

At TransPak, we know timing is critical to your fulfillment process and systems. We work with you to identify the ideal quantity of products needed so production runs smoothly and inventory is minimized. If you like, TransPak can take responsibility for maintaining an agreed inventory of material and we can even help you adjust for demand and supply gaps. With TransPak on your team, you don't have to worry that you'll unintentionally run out of stock or have a production line down.

Domestic & Import Specialists

We understand the demands that shipping – domestic or international – puts on packaged goods and products.

TransPak specializes in the design and manufacturing of custom corrugated containers and protective packaging. We know what it takes to safeguard your products and equipment. Our extensive network of resources and factory direct sources allow us to offer all the packaging supplies and supply chain support you need for flawless execution every step of the way.

At TransPak, we can help you safeguard against potential problems when designing your packaging, no matter where it is traveling. If you need it, we'll assist with packaging requirements and make sure that your products adequately sealed, properly braced with the weight evenly distributed. We can even handle any hazardous materials packing, straps, seals and shrink wrapping. TransPak can help you get the packing done right.

Ease of Doing Business

At TransPak, we form partnerships with our clients that are built on trust, dependability and collaboration. Your quotes and orders are met with a remarkably fast response time, and the problem solving capabilities of the TransPak packaging team are second to none.

With TransPak, you know you'll get consistent, reliable service every hour of every day – in person, by phone or on the web – whatever works best for you.
