

## TRANSIT CASES

### Custom Made Shipping, Carrying and Computer Cases

TransPak specializes in designing the ultimate functional, durable shipping and carrying cases. By detailing your requirements, TransPak develops and manufactures transit cases that provide maximum protection and convenience. Our quick turnaround times mean you can be certain that your sensitive materials will ship on time and well protected.

#### Built to Your Specifications

No matter how complex your equipment, TransPak works with you to create unique solutions that meet your needs. Custom interiors and shock absorption systems provide maximum cushioning. Externally, TransPak cases are ruggedly built for the long haul. Handles tuck in or pull out for easy moving and, to simplify identification, TransPak's custom-made transit cases come in a variety of colors which can be labeled with handling instructions or your logo.

#### Travel Safe and Sound

TransPak's transit cases feature custom foam inserts that enable your materials to withstand the rigors of travel including typical impacts and height drops. At TransPak, our training and experience means we can tell you the correct amount of cushioning for any type, size, weight or dimension of product you'll need to move in a transit case. The cases themselves are extremely durable, so you can trust your materials are safe.

#### Unique Applications

Our custom-made cases go far beyond the basics of ready-made cases. By tapping into a depth of experience and focusing on

With TransPak, your transit cases are 100% custom-made to ensure your precision products and equipment are cushioned and secure for both shipment and storage. You can count on us for quality both inside and out. We offer you superior products and most effective case solution possible to ensure peace of mind that your equipment is protected.

high-quality, TransPak provides cases for a wide range of applications and has the expertise to create a unique solution for you. Our custom transit cases provide protection for the diverse needs of global medical, semi-conductor, green and high-tech industries.

#### Protect Your Investment

We design and build transit cases that are specifically made to meet your needs no matter how delicate your materials or complex your specification. Our rugged cases offer the durability and protection you need for moving your valuable equipment around the world or just across town.

We partner with you to deliver the highest quality and most cost effective case solution possible for protecting your expensive equipment. You can have this same level of confidence throughout your supply chain by leveraging all of TransPak's packaging, crating and logistics services.
